To whom it may concern;

I hired Andrew Pelissier to paint my house this summer, 2006. From the first encounter until the end of the job Andrew, who works for College Works Painting, demonstrated a professional and courteous attitude. His work ethics were beyond reproach; sometimes working sixteen hours in a day. He approached the job with the determination to deliver a quality job regardless of the obstacles, and there were many. I have an older, rather large, home with intricate details including a screened in porch. Because of this I expected communication to break down along the way but rather, I found that Andrew clearly understood all of my request and expectations. He responded immediately to every request I made positively and with very satisfactory results. Andrew managed his crew professionally and with patient understanding.

I would, without hesitation, recommend Andrew for any endeavor he was to take on.

Please contact me should you need further clarification.

Regards,

Kevin Hayes
