We needed our house painted this spring, Brad Swenson of College Works Painting dropped by to see if we'd be interested in an estimate. We set up an estimate with Brad. He came on time and prepared to answer all our questions.

May 3, 2007

We needed our house painted this spring, Brad Swenson of College Works Painting dropped by to see if we'd be interested in an estimate. We set up an estimate with Brad. He came on time and prepared to answer all our questions.

We were impressed by his professionalism, and we decided to schedule the work after reading through his portfolio. As soon as the weather cooperated, Brad called excited to start the job. He wanted our house to be the first so that he could train his branch operators Chris, Ashley, Grant, and Tyler. They worked while their clients called on the phone to ask questions. They were all ambitious and very friendly. They did the work as they juggled their final exams, the weather, and got the job done sooner than we expected.

The house over 50 years old-it needed a lot of prep work. They pressure washed, scraped, sanded, wire brushed, and caulked as needed with smiles on their faces. Our front window was so bad that they had to re-glaze it so the panes wouldn't fall out.

They cleaned up every night and walked us through what they had done during the day. When we had special concerns they addressed them. Brad reminded us that painting is a process that happens one step at a time. At the end of all the processes we had a beautiful painted house!

Thanks Brad and CWP!
