Wow the hottest week of the year and your guys were out there. We really appreciated Justin, Anthony and Carlos for there dedicated efforts. Even through the heat and wind, they persevered. They really did a good job. It was really a hard job with all of the trim work and the tape falling off the wood but they made sure everything was good at the end of the day. They were very pleasant and if I asked them to do anything they were more than willing to do what I asked.

Thanks again for the good work we are very pleased.  
Sincerely,

Dean and Kris Bullock
