I am highly impressed with your crew of Scott Linn and Andrew Samford. Their strong steady work ethic was wonderfully complimented by their good natures and seamless team work. The quality of their preparation and painting was great. They both went the extra mile. I could not be happier with their work on my home. I plan to recommend you and your crew to family, neighbors and friends without reservation.

Dear Steven Pray:

I am highly impressed with your crew of Scott Linn and Andrew Samford. Their strong steady work ethic was wonderfully complimented by their good natures and seamless team work. The quality of their preparation and painting was great. They both went the extra mile. I could not be happier with their work on my home. I plan to recommend you and your crew to family, neighbors and friends without reservation.

One suggestion I would make is that I did not understand in particular that "spackling" is considered "restoration" and thus was not an aspect of painting preparation that your company provided. I only learned this just prior to when your crew was to begin their work. Luckily, I was able to do some needed "prep" not provided by your company (spackling and replacing some deteriorated wood trim) before the work began. The definition of "restoration" and the limitations of you company in painting preparation should be more fully explained to prospective customers before a contract is signed.

Respectfully,

David D. Bennett
