To Whom It May Concern:

Re: Residential Home Painting Job

This is a letter of appreciation for the profession manor in which crew painted my home. This extends from John Johnson to the whole crew. It is hard to determine which was more impressive: the completeness of the estimate process and the detailed explanations, the fact that the work started on time, the extra pride and care they took in their work, or perhaps that the work was completed on time.

I would recommend College Works Painting to anyone wanting their own home exterior painted. All I needed to do was choose the color scheme and agree upon the scope of the painting. John was very careful to explain every detail in advance so there was never a question as to what was being done or the cost. The whole process is as painless as any home job I have ever had done.

Sincerely,

Charles S. O'Dell
