To whom it may concern:

We were greatly impressed with the professionalism and organizational skills of Michael Stratis, while undertaking the painting of our property at 164 Carroll Ave. Westwood MA.

Further, his two workers, Kelly and Jasen, surprised us by their tireless effort in such hot and humid weather. They all are great workers and deserve a lot of credit for a job well done.

It is especially gratifying for us to see young adults, such as these, taking on responsibilities to orgment their incomes to further their education. We wish them all the best in their future endeavors.
