

June 10, 2005

To Whom It May Concern:

On June 6, 2005, College Works Painting power-washed and painted our board-on-board fence surrounding our double lot. There were three crew members in all, Evan Wood, who was in charge, and two other college students.

They were very efficient and we are quite pleased with the way our fence looks now. It really made it look like a "new" fence.

Drop cloths were used so that the surrounding areas were not spray-painted and they were very careful of the adjoining yards.

I would have them do any work that I needed done in the future. You can rest assured that they will do good work for you also.

Sincerely,

A handwritten signature in cursive script, appearing to read "Paul Zerow".
