For the past week Josh Benson and his crew have painted my house. It is fifty years old and needed a great deal of preparation using putty and sander. There are many filigreed iron rails which required intricate work. They did this work with a minimum of spillage.

To whom it may concern:

For the past week Josh Benson and his crew have painted my house. It is fifty years old and needed a great deal of preparation using putty and sander. There are many filigreed iron rails which required intricate work. They did this work with a minimum of spillage.

I would recommend Josh and his crew to anyone who was seeking a good paint job.

In addition to painting the house. Josh and I made an agreement that he would paint the lawn furniture and I would buy the paint. Josh has done an admirable job with this task.

In addition to doing a satisfactory paint job. Josh has kept in close touch, always answering a call on his cell phone to answer a question. If he was going to be late, he always informed me. I appreciate very much this kind of service.

Anyone interested may call me to further discuss the work done by this outstanding young man.
