We recently had our house power-washed by College Works Painting. I would like to commend Lauren O'Toole, who was our local representative, for her professional handling of our job.

June 26, 2006

To Whom It May Concern:

We recently had our house power-washed by College Works Painting. I would like to commend Lauren O'Toole, who was our local representative, for her professional handling of our job. She made certain that she was on-time for our initial meeting, gave us a reasonable estimate, kept us informed of schedule changes (due to the extremely wet weather we had in the May-June timeframe), and made very sure we were happy with the job done to our house. She showed a great deal of interest in getting the job done right the first time, and making sure of our satisfaction.

We would also like to commend her crew chief Avi, who did the work on the house. Avi worked through less-than-ideal conditions, but kept working steadily until the job was done. After the job, he took us around to inspect his work and immediately addressed a couple of minor issues.

Overall, we were impressed with the dedication to the job and the quality of the work done. I would not hesitate to recommend College Work Painting to anyone who wants the exterior of their house treated with proper respect and professionalism.

Sincerely,

Raymond Lodato
