On 2 July 2006 I had the opportunity and privilege of watching your painting teams in action. As an experienced painter, i.e. forty-three years of painting U.S. Navy ships, I was most impressed with the quality and skills of your Ashland painting crew.

Gentleman:

On 2 July 2006 I had the opportunity and privilege of watching your painting teams in action. As an experienced painter, i.e. forty-three years of painting U.S. Navy ships, I was most impressed with the quality and skills of your Ashland painting crew. They would be welcomed aboard any ship that I commanded. The attention to detail, professionalism, and work attitude of these three young men were absolutely outstanding!

They were a pleasure to deal with. Gabe Minchow was the team coordinator and manager. He was superb in all aspects of that tasking. Jeremy Johnson and Jon Raby displayed superlative levels of excellence in their preparation, painting skills and careful review of the finished product. Overall, this was energetic, stellar team. I commend you for your team selections and training program.

Based on the high quality of the work and zest and skills of these College Works players, I am strongly recommending your services to other area homeowners. Well done!

Sincerely,

C.H. Drake
