

College Works Painting Reference Letter  
Dave Rienes

I have been please with the professional manner by which both Brett Valentino and College Works have painted my house. I have also been pleased with the efficient and timely manner by which the job was done.

To whom it may concern:

I have been please with the professional manner by which both Brett Valentino and College Works have painted my house. I have also been pleased with the efficient and timely manner by which the job was done.

The process began with a walk around to determine what I wanted to be done. The same process took place at the end of each work day to make sure what was determined to be done was done. This a satisfactory approach.

The job was completed in a brief period of time considering the work climatic conditions. Butt Valentino held things together, made necessary adjustments and kept his crew on task. Overall a very professional job.

I strongly recommend Brett Valentino and College Works.

Respectfully,

Dave Rienes
