Personnel Department

Personnel Manager,

Back in February I was approached by College Works Painting's Tim Fukushima to provide an offer to paint all of the wooden trim and gutters on our home. I had heard of your organization, but knew no one who had personally utilized your services. I requested Tim to provide me a quote for the painting. His estimate was very thorough and to my surprise it was a firm price offer. I accepted the contract on February 28, 2004. Tim maintained contact each month until he set the schedule to come paint the house.

On June 3, 2004, Tim, Doug Spoerl and Luke Baurek showed up as scheduled to begin the cleaning and preparation of the wood surfaces and gutters. Having done this project myself I know what a bear of a job it is. I must say I am truly impressed in the work ethic of these three men and the thoroughness of their work. All surfaces were washed down and the wooden surfaces were sanded, caulked and primed before painting and the gutters chemically cleaned to remove years of built up dirt. I am a truly satisfied customer and want to thank Tim, Doug, and Luke for the excellent professional work. If I had hired a professional painter I would not have gotten as complete a job and I know it would have been costlier.

I will recommend College Works Painting to my friends and neighbors.

Sincerely,

David J. Hoffmann
