

College Works Painting Reference Letter
Alvin H. Safanie
4103 Amherst Drive • Champaign • Illinois • 61822

I am pleased to write these unsolicited comments regarding the excellence with which my deck and wood fence were painted recently by your employees in this college community under the direction of David Park. In preparing the proposal, Mr. Park explained each step of the procedure in detail and gave me my choice of finishes.

College Works Painting
1682 Langley avenue
Irvin CA 92614

I am pleased to write these unsolicited comments regarding the excellence with which my deck and wood fence were painted recently by your employees in this college community under the direction of David Park. In preparing the proposal, Mr. Park explained each step of the procedure in detail and gave me my choice of finishes. I found him personable, courteous, knowledgeable and extremely thorough. The preliminary preparation of the woodwork was entirely effective in spite of widespread mildew and numerous bird droppings, a fungicide was included the direction of Mr. Park, worked diligently and efficiently, so that the entire job was completed in about two days. I was especially pleased to see that the end grain of each board had been effectively sealed by the new paint. The cleanup was prompt and complete.

Please feel free to make these comments available
To prospective clients.

Sincerely,

A. H. Safanie, DVM, Ph.D.

I am pleased to write these unsolicited comments regarding the excellence with which my deck and wood fence were painted recently by your employees in this college community, under the direction of David Park. In preparing the proposal, Mr. Park explained each step of the procedure in detail and gave me my choice of finishes. I found him personable, courteous, knowledgeable and extremely thorough. The preliminary preparation of the woodwork was entirely effective in spite of widespread mildew and numerous bird droppings. A fungicide was included in the wash as specified in the proposal. The crew, under the direction of Mr. Park, worked diligently and efficiently, so that the entire job was completed in about two days. I was especially pleased to see that the end-grain of each board had been effectively sealed by the new paint. The cleanup was prompt and complete.
