My house was in dire need of a paint job and I had begun the laborious task of finding qualified house painters in the area to tackle the project. As luck would have it, a delightful young lady named Sabrina Pieterick stopped by to leave a flier on my door about College Works Painting.

My house was in dire need of a paint job and I had begun the laborious task of finding qualified house painters in the area to tackle the project. As luck would have it, a delightful young lady named Sabrina Pieterick stopped by to leave a flier on my door about College Works Painting. The program sounded interesting, so I agreed to meet with Sabrina and get an estimate for the job. After receiving two other bids, I decided to go the College Works route and am very happy with my decision.

Sabrina and her team lived up to my expectations in terms of professionalism, responsiveness and quality. Sabrina was very thorough from the beginning and kept me well-informed of each step of the project. Her team of painter provided excellent service, from preparing the house to adding the finishing last touches of paint. They showed up on time and went about their business in a Professional manner each day.

Needless to say, I'm pleased with the work and my beautiful "new" house. College Works Painting is a great program, and with young adults like Sabrina Pieterick and her team on board, I suspect the program will flourish for many years to come. Job well done!
