The crew from College Works has just completed painting our home and I must say that I am very pleased with the results. The house looks better than it did when we bought it.

The crew from College Works has just completed painting our home and I must say that I am very pleased with the results. The house looks better than it did when we bought it.

I am also very pleased with the professionalism shown throughout the project. Max did an excellent job of introducing the company and explaining the process and answered all of our questions. The two young men who did the painting, Shane and Theo, worked very hard, took great pride in their work and were always very courteous.

I would be happy to recommend this company and especially this crew to anyone seeking to improve the look of their home.

Sincerely,
