We chose College Works under the supervision of Brian Nardi to paint our house, the eaves and the window frames.

June 20, 2008

To whom it may concern:

We chose College Works under the supervision of Brian Nardi to paint our house, the eaves and the window frames.

Brian came to the house and explained how the company worked and the process they followed. We took a walk around the house and I explained what we wanted done. Brian then had us pick out colors and gave an estimate.

Brian and his crew arrived when they said they would and worked hard until it was finished. Brian was on hand and talked to us about any changes or now. Recommendations that he had. He was clear and thorough and honest about what needed to be done.

Sincerely,

Elizabeth Brasca
