To Whom It May Concern:

Having painted the bottom part of my house, I was looking for someone to do the top part of my house when Matt called. I was a bit skeptical at first until I met with Matt to go over the job specifications. He came at the time that he gave me and thoroughly scoped out the job. He took time to get the right measurements and other particulars in order to present a detailed proposal. He asked questions and listened to any concerns that I had. When I asked for proof on insurance and references he promptly provided them. In talking with Matt, I always had the sense that he knew what he was doing and knew what questions to ask.

In doing the painting job itself, I was impressed with the level of professionalism. Matt and his crew arrived on or before the time that he had given me on both days. This minimized the amount of time I had to take off. The crew had everything that they needed in place and knew what they had to do. Matt supervised the crew well giving them guidance and tips as they did the job without being intrusive. The crew finished the job ahead of time, but never seemed to rush through things. Everything was done as Matt had scoped out.

To sum up, the job – from initial proposal to final clean up -- was done in a thoroughly professional manner.
