We recently had a our home painted by College Works painters and we were very pleased with the results. We were especially pleased with efforts of one of the young gentlemen. Kevin McElfresh. Kevin's attention to detail and overall work ethic were immediately evident to myself and my husband. This was no more evident than on the last day they were at our home. Kevin and the rest of his team arrived at 8.00 am and did not leave until 9:00pm. They wanted to make sure we were completely satisfied before they left.

To whom it may concern:

We recently had a our home painted by College Works painters and we were very pleased with the results. We were especially pleased with efforts of one of the young gentlemen. Kevin McElfresh. Kevin's attention to detail and overall work ethic were immediately evident to myself and my husband. This was no more evident than on the last day they were at our home. Kevin and the rest of his team arrived at 8.00 am and did not leave until 9:00pm. They wanted to make sure we were completely satisfied before they left.

Kevin was particularly courteous, engaging, and very informative throughout the entire process. He took the time to walk around the house with us and explain all that was done each day and what would be taking place the next day.

I was especially impressed with Kevin's demeanor towards my children, who always "wanted to help". He was very patient with them. Indeed.

After living in a university town for 13 years. It was extremely refreshing to see such courtesy. Ambition. And, most of all, manners in a group of young students. They were all a great pleasure to have in my home, and when they were finished they took the time to come into my home and say goodbye to my children will someday exhibit to their community.

I would highly recommend Kevin and the rest of his team to anyone considering using the services of College Works. Not only will you receive professional house painting. But you will experience an amazing group of young people.

Sincerely,

Cindy Nucciarone

I was especially impressed with Kevin's demeanor towards my children, who always "wanted to help". He was very patient with them, indeed.

After living in a university town for 13 years, it was was extremely refreshing to see such courtesy, ambition, and, most of all, manners in a group of young students. They were all a great pleasure to have in my home, and when they were finished they took the time to come into my home and say goodbye to my children, who had grown very attached to them. They exhibited all the qualities that I hope my children will someday exhibit to their community.

I would highly recommend Kevin and the rest of his team to anyone considering using the services of CollegeWorks. Not only will you receive professional house painting, but you will experience an amazing group of young people.

Sincerely,

Cindy Nucciarone
