To Whom it may concern,

I hired College Works to paint my house in April. We scheduled a date towards the end of July. Dustin was very professional and kept in touch with us during the three months prior to starting the job. I was very happy with the way the paint job was completed. Both Niki and Ryan were here everyday once the job was started and completed the job in a timely fashion. Both Niki and Ryan conducted themselves very professionally during the time they were here. Dustin went beyond the call of duty and completed repairs on our step and accepted the changes I made to the painting of the trim with no complaints. I would not hesitate to recommend any of the three people I dealt with on this job for future employment. I am very happy with the way the house turned out. We have a house that was built in 1920 and a lot of prep work was required before they could start painting.

Sincerely,

Kim Kibble
