You have no idea how pleased I am with the way my house now looks. As you well know, it needed lots of TLC and that is exactly what it got.

Dear Keeley,

You have no idea how pleased I am with the way my house now looks. As you well know, it needed lots of TLC and that is exactly what it got. I am very impressed at the prep work you and your painters Tasia and Giuseppe did on my house. I have every confidence that this wonderful paint job will last for many years. I also appreciate the care you took to protect my plantings from any "distress" as well as the effort you took to tidy up when the job was done. And thank you for putting in long days when the weather was good and not trying to "get the job done" by painting when the weather was damp and rainy.

Good luck and I wish you lots of success at College Works Painting. Feel free to use my name as a reference

Sincerely,
Martha L Hunt
