We would highly recommend College Works Painting if you are considering having your house or business painted. Our experience with the group of young men who worked on our house was unparalleled in every respect.

To whom it may concern:

We would highly recommend College Works Painting if you are considering having your house or business painted. Our experience with the group of young men who worked on our house was unparalleled in every respect.

The estimating process included clear concise information about the methods they would use to prepare our house. These included power washing, washing down mild-dew areas with TSP, caulking and priming before the paint was applied. This estimating process also communicated when, in their schedule, the job would be started and the length of time they'd be working.

The preparation work was done as explained. During the prep work many holes became apparent in our gutters. This issue was addressed immediately by the crew manager, Adrian Trumbo. The gutters were repaired for a very reasonable charge. All through the project the communication between Adrian and us was excellent.

The weather was very hot, over 100 degrees one day, while they were working. Adrian respectfully asked if it would be all right if the crew, Matt Rowan and Jeff Trench, removed their shirts while they worked.

Each evening they cleaned up and stored their supplies in an area out of our way. When the job was finished they cleaned up thoroughly. Minor paint drips were removed and the flakes from scraping were swept off walks and decks. They even raked our landscape bark to remove paint flakes.

The end result is great. Due to the close supervision by the crew manager, we believe College Works Painting did a better job than we ever could have done!

Sincerely,

Rafael and Cathy Mosqueda
