

College Works Painting Reference Letter
Paul Massaro
Shelby Township, Mi.

I would like to recommend College Works Painters. The initial presentation was very professional and informative going over each step of their process and their intent on doing a quality job.

I would like to recommend College Works Painters. The initial presentation was very professional and informative going over each step of their process and their intent on doing a quality job. I am very pleased with the quality products they used and their willingness to get the job completed. My crew even worked over a holiday to complete the job! They did what they said they were going to do with minimal interruption to our property and lives.

There was a significant amount of supervision, making sure the job was done to my satisfaction. All the crew members were very hard working, courteous and wanted to make sure that I was pleased with the final results. They were more than willing to touch up places that I pointed out to them needed some extra care.

I would be willing to use them next time my house needed painting and recommend them to my friends.
