During the week of June 13, 2005 a College Works team consisting of Craig Chauviere, Chris Campbell, & Logan Boatright painted all of the trim on our house and garage at 7030 Baron Ridge. We selected a two – color paint scheme of eldorado tan & olde hunter green – a very difficult color scheme to apply; especially in 95+ degree temperatures.

To Whom It May Concern,

During the week of June 13, 2005 a College Works team consisting of Craig Chauviere, Chris Campbell, & Logan Boatright painted all of the trim on our house and garage at 7030 Baron Ridge. We selected a two – color paint scheme of eldorado tan & olde hunter green – a very difficult color scheme to apply; especially in 95+ degree temperatures.

The team worked very hard to complete this project to our satisfaction. I am a 70 year old do-it-yourselfer who knows a good job when he sees it, and they did a good job.
