I am pleased to write this letter of recommendation for Eric Coombs and Brian Taggatz of College Works Painting. Eric first approached me last winter regarding painting my house. He explained that he is a college student and College Works Painting allows him to learn how to run a business by doing all the management of the business. I did not need my house painted, but had been thinking about painting my fence, deck and gazebo. I decided to give College Works Painting the job.

I have been very impressed with the professionalism of Eric in all of his dealings with me. He follows through on what he promises. I was home on one of the days Brian was painting for me and I was very impressed with his hard work and attention to detail.

I would highly recommend College Works Painting for any painting job.

Very sincerely,

Lori Johnson
