We are impressed with the superb paint job Evan Wood's crew did in painting our house and shop building. We are 100% satisfied in the excellent results and the entire experience with this program.

August 17th, 2005

To Whom It May Concern:

We are impressed with the superb paint job Evan Wood's crew did in painting our house and shop building. We are 100% satisfied in the excellent results and the entire experience with this program.

Evan showed he was well-trained in his hiring of respectful and ambitious workers, and in keeping the project schedule despite near 90-degree weather. They were conscientious in their work and a pleasure to have painted our home.

Evan was on the job early each morning with materials ready for this crew's arrival, and went over the day's schedule before the work began. He showed incredible, mature leadership ability and rechecked the work daily. He told us he could leave his crew with complete assurance the work would be finished as instructed.

We had never heard of this program when Evan approached us at our door, but wish everyone needing everyone needing their houses painted could participate in this win/win experience involving hiring well-trained college youths. We'd get it a positive 10!

Sincerely,

Mona MacPherson
