College Works Painting painted our house and we couldn't more please. The young men were very conscious of doing a good job and very much wanted to please the customer.

College Works Painting painted our house and we couldn't more please. The young men were very conscious of doing a good job and very much wanted to please the customer.

Their prep work was very thorough and the painting was done in very reasonable time frame.

We would highly recommend College Work Painting for "A Job Well Done."
We also would like to comment on the young men that we deal with during this process.

Their names are Paul Hampton and Tomas Victor. They worked with us throughout the process both with suggestions and their aim to please the customer.
