Re: College Works Painting
Paul Hampton, Executive MGR.

To Whom This May Concern:

We retained College Works Painting to paint our outside eaves and fascia, down spouts, doors and some of the siding of our 46 yr old home. They had not been re-painted since we bought the home in 1993. The eaves and fascia were in disrepair, paint was peeling, and in need of repair.

The reason we chose College Works Painting was that they came to our door, offering a free estimate on cleaning, repairing and re-painting said areas. The team that came to give the estimate, Miles Roberts, et al, was at all time very professional and competent. We were not pressured at any time We had a contract agreement, and everything was well written out as to what we wanted done.

When the manager, Paul Hampton, came with his painter(s), we walked around the area and decided what was to be accomplished, per the estimate. That same day the painter Adam Lorenc proceeded to make all repairs, sand and prime the areas. Adam worked on this from noon that day until late in the evening .Adam, a Czech. Republic native, had a superior knowledge of the English language. He was accommodating, and asked question before anything was accomplished, which was much appreciated. The next day, 7/6/2006 Paul, Adam Lorenc and Ota Dort arrived at 7 am. Paul dropped the guys off, and returned around 5 pm to see how the progress was going. I have to say, Adam and Ota, the painters, were so polite. I was worried about their well-being at one point when it become very hot outside, I offered them a pitcher of ice water and some glasses. They were very appreciative. They called me "Madame". The entire job was accomplished in 2 days time. The quality of painting was excellent, the boys (Adam & Ota) were great, we had some nice conversations about their homeland and about their reaction to staying in America. I have great respect for these two gentlemen, and would recommend them

for any job they apply for. Regarding Paul Hampton, he was very professional, and seemed to have complete control of the people that he was responsible for.

In Closing, I am quite impressed with the work that has been done on our home We are impressed with the quality of the foreign students that have been enlisted to do this work for College Works. It seems to a great program for the students, as well as us.

We should all be appreciative of College Works. I would not hesitate to recommend them for any job that you may require.

Sincerely,

Ivan & Celeste Rarick
