To whom it May Concern,

We were looking around for quite some time for a company to paint our home. We were very particular as to whose hands we would trust with our most precious investment. As luck would have it College Works came to us. Once we decided to hire them they sat down with us and explained each phase of the process. Once they got started after every phase we were able to do a "walk around" to see if we were satisfied with their work. What we weren't satisfied with they were very willing to change to our liking.

This wasn't an easy process. There were days where after they scraped and primed it rained and sometimes it rained for days at a time. This meant they had to start all over again with scraping and priming. They were very patient and tolerable. In the end our home looks like new, it was worth the wait. Thank you College Works.
