To Whom it May Concern:

I am writing this letter to highly recommend Colin Pomeroy and his College Works Painting team.

I am very happy with the results and was impressed with their professionalism in getting the job done. Some points that stand out:

- Courteous, agreeable and flexible working relationship
- They put in full days, showing up early, short lunch breaks and left late
- Obliging in getting us demo colors and helping us decide our final choice for the trim
- The whole team was friendly and hard working
- Very conscientious about keeping things clean and watching for any drips or mishaps
- Very thorough in the strip down, cleaning and prepping for the painting
- They even took care of a wasp problem in one of the gutters!

Heat was a factor while they were here. We were in the upper 90's and 1 day over 100. But they kept at it. We are very please with our new house color and would not hesitate to recommend this group to our family and friends.

Sincerely,
Karl & Barbara Oestreich
