To Whom It May Concern:

This letter is written in appreciation for the great job done by Justin Castagnacci and his crewmen from College Works Painting on painting all of the trim on my home this past week.

Justin was courteous, kind, and carefully worked with his paint crew to make sure things were done to my satisfaction and exactly done to specifications as promised in the painting contract.

All the boys who painted my home possessed the best manners, so I'm sure they were carefully chosen beforehand to be on Justin's "team." I want to especially commend painters Justin (another Justin-must be a good name!) and Travis on his team.

Although young, Mr. Castagnacci possesses a winning personality, showed tremendous business skills, and an innate business "sense." He always set to please, whether it was in paint color selection, or making small repairs before painting things that needed fixed first. I have no doubt in my mind that Justin Castagnacci will be successful in any future undertaking, wherever his professional career(s) may lead. I'm sure he'll go far!

I wouldn't hesitate to call College Works Painters to work for me, especially if they were led by someone as conscientious and hard working as Justin Castagnacci. The Company certainly used good judgment when they selected him to be the Team Leader of this project for me. I am very pleased to write this letter of recommendation for others to see.

Milana "Mim" Bizic
