I was very surprised by the quality of work and professionalism that College Works Painting has given me.

June 25, 2008

To Whom It May Concern:

I was very surprised by the quality of work and professionalism that College Works Painting has given me.

A young man, Trennon Judd, stopped by my home advertising the services of the company that he represented. Trennon was very professional and knowledgeable about what he had to offer. I made an appointment with him to come back and give me an estimate for painting my home.

He arrived promptly at the scheduled time, he explained the process in detail and was thorough in finding out what I wanted and what my home needed. I already had other home improvements scheduled for the year and was hesitant in committing to another job. Trennon did not pressure me and left the decision entirely up to me. I decided to sign the agreement and have my house painted. After two days of thinking about the cost. I decided to cancel the agreement. To my surprise. Trennon was very pleasant and did not pressure me into changing my mind.

Well, I thought I could save some money. But, after 6 hours of scraping and priming and not getting very far, I decided that I needed someone else to do the job. I called various painting companies and had bids and estimates. None of the companies could compare to the knowledge and information that College Works Painting had offered me. Pricewise, very reasonable...

I called Trennon to see if we could start the process over. He came over that evening and we resumed the original agreement. Seven days later, the painting was complete.

I found the crew to be very pleasant and respectful of my property and willing to answer any questions or concerns. Trennon visited the job daily to check on the progress and the quality of the work. He made sure the job was completed to my satisfaction. Before he said he was done.

I would highly recommend College Works Painting to any one who wants a better looking home.

Thank You, for a great job.
