19 June 2005

To Whom It May Concern:

College Works Painting, under the direction of Sabrina Pieterick of Vashon Island, painter our house for us in June of 2005. We couldn't have been more please with the process or the outcome.

From our first contact, Sabrina and College Works Painting were more than willing to work with us in order to stay within our allotted budget. Based on their suggestions, we were able to adjust the scope of work while ensuring we achieved the desired results.

Through the painting project itself, the crew was efficient, friendly and courteous. They sought our feedback through every step of the project and didn't hesitate in the least to act upon any suggestions or concerns we had.

The painting project was completed quickly but with no compromise in quality. The crew also did a tremendous job of cleaning up at the end of the job.

We generally are do-it-yourselfers and have high expectations of ourselves or any craft/trade people when we choose to use them. Sabrina and the crew of College Works Painting more than met our standards and we wouldn't hesitate in the least to use them again.

Sincerely,

Michael Pavich
