The above named team have just finished painting the exterior of our home and we couldn't be more pleased. This was their first job and all three worked very hard from start to finish.

In re: Stephanie Rozzo, Team leader; George and Daniel, Painters

The above named team have just finished painting the exterior of our home and we couldn't be more pleased. This was their first job and all three worked very hard from start to finish. They make a wonderful team. The full-pressure wash, the scraping, sanding painting the trim and then the rest of the house were done in record time. The touch-up and clean-up that was done including the windows made the job really complete. It left us with nothing to do except enjoy our newly painted home.

We liked the fact that they stuck with the job and weren't running off doing errands or working on someone else's house while working on ours at the same time. All three were quiet and considered and very efficient. We have never had any other workers that met these high standards.

We appreciated the walk around at the end of each day making sure we were pleased with the job. They left each day by putting everything back in place.

We highly recommend this team for future jobs. The training they received is outstanding.

Sincerely,

Bob and Betty Beck
