Jan and I just wanted to let you know how very pleased we are with the beautiful new paint job you and your crew gave our tired looking house. It really needed a remake after 11 years.

Dear Ryan,

Jan and I just wanted to let you know how very pleased we are with the beautiful new paint job you and your crew gave our tired looking house. It really needed a remake after 11 years.

As we'd told you, your timing for giving us a quote was perfect as we had literally just decided to actively investigate getting our house painted.

We love the tri-color effect and especially the white fascia board after all the years of dark colored eaves. It really give our home a totally new, fresh look.

Naturally our job fell during the worst heat wave we can remember but your crew did their best to catch up and complete the job with minimal delay.

We appreciate your crews care for our property, attention to detail and for putting up with our crazy dogs who tried so hard to help the guys. Kobe still has some paint on his coat as a reminder of his service.

We thank you and wish you every success with your career.

Sincerely yours,

Scott D. Albert
