Re: Brian Nardi/House Painting

To Whom it May Concern:

It is with distinct pleasure that I write this letter of recommendation for Brian Nardi, and the service and support he provided through the College works program.

Brian very respectfully and professionally handled himself through the entire transaction, from the initial solicitation, through the ensuing communications, estimating, contract writing, assistance with color picking, scheduling, and finally to the cleanup.

I am satisfied with the final result and I feel that the house improvement was more than justified by the investment.

Frankly, I was a bit surprised at the professionalism, efficiency, flexibility, and enthusiasm that Brian (and his crew) demonstrated. It seems that there's never enough of that going around these days, especially with younger adults.

I would gladly avail myself to be a future reference for Mr. Nardi, and expect that he will be equally successful in all his future endeavors if he handles himself as

Sincerely,

Tony Delle Torri
