

College Works Painting Reference Letter
W. LORING McMORRIS, III
COAL AND MINERALS PROCESSING
Post Office Box 650
Sandy, Utah 84091-0650

My compliments to Dave Roderick, Project Director, and his team, Jake Meyers and Chris Herman of College Works Painting.

June 8, 2007

To Whom It May Concern:

Subject: College Works Oiling and Painting of my residence
9552 Grandview Drive, Sandy, Utah

My compliments to Dave Roderick, Project Director, and his team, Jake Meyers and Chris Herman of College Works Painting.

The job of oiling and painting my cedar-sided house was a big undertaking and work on the back of my house was not an easy task. I was impressed with Dave's portfolio and particularly with one of his letters of reference stating that a superb job was done on a home with a particularly high drop off. The letter noted College Works noted attention to detail and particularly to safety considerations. Our home has a 35- foot drop off.

The first job tackled was accomplished in the first day of actual oiling.

Dave and his crew's preparation of the home, starting with washing of the siding followed by filling in the siding where needed and resetting nails and replacing siding where needed before oiling and painting began, was outstanding!

The crew is coming ahead of estimated time (even after several days of inclement weather and heavy rains.) The house looks spectacular, far better than we could have ever hoped for.

It would be my pleasure to highly recommend College Works Painting.

Cordially,

W. Loring McMorris, III
President
