Santa Ana, California 92706

Dear Sir:

Recently my wife and I engaged College Works to paint portions of the exterior of our home. I think you should know how pleased we are with their work.

We dealt primarily with Dennis Stalmack, who was prompt, courteous and very straightforward in explaining the scope of the work, the timing and the billing arrangements. The paint crew arrived promptly when promised, and worked diligently while at our home.

We were most impressed with the patient and careful preparation prior to the finish coat. We found this experience to be in marked contrast to some so-called "professional" painters, who seem interested only in disposing of a job as quickly as possible. With College Works, all surfaces were carefully scraped, sanded and primed prior to the finish coat being applied. The work was excellent and our house looks beautiful.

After the job was completed Mr. Stalmack walked around the house and discussed any touch-ups or additional work we might feel desirable. These final matters were completed the next day.

All in all, we were very impressed with the work and would freely and gratefully recommend College Works to neighbors and friends.

Sincerely,

Robert E. Hamilton
