To whom this may concern,

I met Kevin Holtzman several month ago as he represented his company, College Works Painting. I was impressed with his organization and willingness to give me times and deadline and explain in detail the steps he would go through to paint my rental house... When the time came to paint he was on time. Everything was done in a very timely manner. The supplies that his crew used were neatly stored daily and everything that he promised was done in exactly the manner he described. The paint quality was good and were the correct colors I had picked out. I was very impressed with the excellent coverage he managed to achieve on a house that needed extensive painting and

had not been painted in nearly 20 years. The price I paid for this job was most reasonable and will definitely increase the asking price of this house. I would most certainly have Kevin and his crew pain the next time we need a house painted.
