To Whom It May Concern,

I am writing this letter to commend Gustav James on his excellent performance and professional manner as a representative of College Works Painting.

Gustav did such a great job coordinating the painting of my house. He was always in touch with me to keep me aware of what paints were being used and when the process would start. He was an on-site manager once the job began and worked long hours to complete everything on time.

I am very happy with the work that was done and would recommend the company and those they hire.

Very truly yours,

Carol Levenson
