I just wanted to write a note to say how satisfied I am with the paint job on my house done by one of your College Works crews. The independent branch operator with whom I met initially and also overseer of the crew is Daron Maracchini.

June 29, 2005

To Whom It May Concern:

I just wanted to write a note to say how satisfied I am with the paint job on my house done by one of your College Works crews. The independent branch operator with whom I met initially and also overseer of the crew is Daron Maracchini. At least I think that is how he spells his name...I can pronounce it, but not certain that spelling is what I'm reading on the contract agreement.

I must admit that we got off to a bit of a rocky start at the beginning of the job. However, once I voiced my concerns and Daron really got everybody organized, everything began to go more smoothly and efficiently. When I saw my house this afternoon upon my return home from work, I was very happy. It looks great!!

I thanked Daron in person, of course, but please take this as a written account of my satisfaction.

Cordially,

Patricia Lopez
