To Whom It May Concern:

We recently contracted with College Works Painting to repaint the back half of our house plus the front door (the front of the house has metal siding). This was done through Hilary Anders, the project coordinator. She first contacted us and made a careful assessment of the work, explained the work plan and provided a very complete bid... This was all done in a very pleasant and professional manner. We had a preferred time slot for the work. Hilary arranged to do our job between others to honor this request and she kept us informed of the timing so we could prepare in advance. .She also inspected the house with one of us at the end of each work day.

Like Hilary, the crew chief, Travis Green, plus his helper, Jacob, were efficient and Congenial. They worked as a team and actually finished the job faster than expected. A key part of the work involved extensive scraping and removal of loose old paint. They did a careful job of that and managed to keep the chips from making a big mess. When the job was finished they did a walk around the work area with us. We found a few spots that needed touching up, and they redid them before leaving. They left a partly used can of paint for future touch ups if needed..

In summery, we were very pleased with the work and the crew. We do not hesitate to Recommend them. If further information is desired, please contact us at [georgehm@aol.com](mailto:georgehm@aol.com).

Sincerely,

George H Miley
