To Whom It May Concern;

We recently had some young men, Chris Herman and Jacob Meyers, representing College Works Painting do some work on our home.

I cannot say enough about how grateful I am for all they did. The job turned out to be so much more involved than what they were planning on. What they thought would take them a few hours, ended up taking them a few days. Yet, through it all, they were cheerful, and nice. I never heard a cross word. They were more than professional, they acted with great integrity.

They not only finished the job, but they did it beautifully.

If you are considering having any painting done on your home, I would greatly recommend that you have these young men to the work. You won't be sorry!

Sincerely,
