It is a rare occasion when I have the opportunity to speak as highly as I am driven now to speak about the quality of work provided me by any vendor.

June 6, 2006

To whom it may concern,

It is a rare occasion when I have the opportunity to speak as highly as I am driven now to speak about the quality of work provided me by any vendor.

We contracted with Tim Foley and his crew from College Works to clean and paint the exterior of our home... a job which was long overdue thus more challenging than a typical paint job. It was Tim's professionalism and demeanor, combined with reputation of College Works which persuades us to hire his team. It is the result of their labor that will ensure that we hire them again for our next job, and which drives me to recommend them most highly to their next potential clients.

Tim's team worked though summer heat and around summers showers; they arrived early every morning and worked hard until the day was done. My wife and I both work from home, so we were present for whole job. Thus, I can attest to the professionalism of the crew. They focused on the job at hand, they acceded to our numerous detailed requests with a smile, and they didn't end the day or the job until we had a chance to inspect and approve the work.

To put it simply: we are very happy with the work, we recommend them highly, and we will hire them back at the next opportunity.

Sincerely,

David Gallagher
