Dear Executive Team:

We wish to acknowledge the excellent work your College Works Painting team performed recently under the management of Kent Rentschler. During the latter part of July, 2007, despite their starting with some difficulty due to rainy conditions, Kent successfully planned the work to fit our schedule and followed through in an efficient and highly satisfactory manner. He communicated well, informed us of what was going to be done and when.

Kent and his associate, Andy Kramer transformed the weathered, T-11 exterior into a lovely, well-painted home. From power wash prep work to the final painted details they worked with care and diligence; they were attentive to special needs such as proper masking of windows on our contemporary home. They were responsive to pint coverage required on the plywood exterior and to the challenge of the overhead eaves as well as other details. I was impressed with the professional manner with which they handled the spray brush. Safety precautions were evident. Clean-up was thorough.

We are very pleased with their work. We got to know them a bit. Considered as a couple of college kids both Andy Kramer and Kent Rentschler would be congratulated on their work ethic. But they both rise above that characterization. Both of these young men show maturity beyond their years, with the right attitude, working toward meaningful careers in the future. We commend them for their persistence, intelligence and good nature.

We wish them well. It was our pleasure getting to know them and we are confident they will succeed in whatever direction they might take.

Very Truly Yours,

Adolf and Heidi Klova

cc: Andy Kramer
