I would first like to tell you that it was a pleasure working with you on painting our house. You concerned yourself with us being happy through the whole process.

June 19, 2008

Dear David,

I would first like to tell you that it was a pleasure working with you on painting our house. You concerned yourself with us being happy through the whole process.

Your crew was considerate and friendly. The project was started and finished on time.

We are happy with our newly painted home. And we would gladly recommend you to anyone considering having their house painted.

We wish you well in the future.

Cynthia Knowlton
