Dear Matt,

Joan & I want to thank you and your crew for the timely and quality painting of our house on-time and in an extremely professional manner.

Please feel free to use this as a letter of recommendation to prospects.

In our discussions of your College Works program & what we wanted, you were a pleasure to deal with. Clearly, in our initial contacts, you were articulate, forthright, & personable. As we got into some of the specifics you were very attentive, asked specific detailed questions & made notes.

In our first walk around the outside of the house, Joan questioned you about protection of the gardens & shrubs. You carefully explained the steps that would be taken to protect the ground in the work area with drop clothes. Indeed, the rhododendron ended up being carefully protected by cloth & fabric.

I was impressed by how gracefully you worked with Joan to get the precise shade of green she was looking for ... even coming back with some paint to apply for confirmation a couple days later.

Your preparation of the detailed estimate and reviewing it with us, keeping us informed of the work schedule, daily cleanup of the work site and the final results were most impressive. I would not hesitate to recommend you.

Sincerely,

Robert F. Walleck
