Irvine, CA 92614

Dear College Works,

Wishing to express appreciation for your business is the intent of this letter. Thank you for giving Brandon Coursey the opportunity to work for you this summer. He managed repainting my house in June, 2007 and completed the project beyond my expectations. Under his direction, his crew did excellent work. They arrived as scheduled, put in full days, worked diligently and painted with dedication to detail.

Brandon managed the process of the paint job, the workers, and the business with competence and professionalism. He is highly commended for his strong focus and desire to do a thorough job at all levels. He will do well in his future endeavors as he already possesses the qualities of a competent businessman. Due to your youth training program Brandon's abilities had the chance to shine.

One of my favorite moments in working together was our final meeting. Brandon and his assistant Justin, sat down with my son, age 11, and myself and reviewed the project. As we shared our thoughts, the two young men spoke with my son of the value of this summer work experience, their growth and personal lessons, and exemplified the epitome of strong, young males in our society. I treasure that sharing as it was a 'magic moment' in our summer and blessed our lives.

Thank you again for creating this opportunity for young people to build strong. The lessons carry over in more ways than we realize. And the house is painted well!

Sincerely,

Sue Christian
