I am a recent homeowner who was in need of some quality, yet inexpensive exterior painting on my home. A wonderful young man named Ian Moriarty came to my door one. afternoon and told me about College Works Painting services. I was impressed and interested in this service and had my home painted recently. We agreed to a figure and the job got underway. He and his painting crew were conscientious, polite, and very professional. They arrived on time and work nearly non-stop throughout the days that they were here. After each day, Ian had me to review with him the work that he had done to make sure I was satisfied. I am somewhat particular about things being done right and above all; I'm always looking for quality workmanship in project that I undertake. Well, I was not disappointed at all and in fact, very surprised and happy with the work that Ian, Bradford Selby, and Anthony Dachuna did on my home! These are wonderful young man who takes pride in the work that they do. I would highly recommend College Works to anyone looking for quality exterior painting done to there home! You're the best guys! Thanks!!

Sincerely,
Kathy Wasson
