To Whom It May Concern,

I am very pleased to write about my experience with College Works Painting, and particularly in regard to Andy Lincowski, the Branch Operator.

From the very first time Andy knocked on my door, I felt that he was honest and capable. Even though I had never heard of College Works Painting, the materials he gave me and the discussion we had, convinced me that this was a project that would serve my needs.

Andy was very faithful keeping in touch between the time the contract was signed and the work actually began, which was close to three months. When the work started, he and his worker were here at the promised time, 5:00 a.m. I was very impressed with the thoroughness of the work, from the power washing, the scraping, the taping, and also the daily cleanup. The paint job is exactly what I had hoped for, and I am sure that it will hold up well for some time.

I thank College Works Painting, and especially Andy Lincowski, for the improved appearance of my home, and I will not hesitate to recommend you to anyone who inquires.

Sincerely,

Angela Berbaum
