Re: Contract No. 2004-117510
Larry Sherman, Branch Operator

Letter of Recommendation

The exterior painting of our home has just been completed by your company; represented by Larry Sherman.

We would like to commend you for the quality of service we have received throughout this process. Larry Sherman represented himself as an experienced and efficient painter to us and he has proven to be just that. He is a courteous young man, honest and sincere.

Larry has gone to great lengths to give us quality workmanship and has proven his knowledge and experience as a house painter. The manner in which he treats his assistant is firm and respectful. We appreciate the seriousness with which he conducts himself while being friendly and accommodating.

We would also like to commend Chas Swallow who has been at the job from the beginning. Chas is dedicated to giving his best and the quality of his work shows this. He has done a terrific job painting our home. His attention to detail and careful handling of brush and paint was most appreciated.

The careful cleanup after the completion of the job has also been done with care and efficiency. This has been of special concern to us and we are pleased at the outcome of their attention to this detail.

We thank you for a job well done and look forward to many years of enjoyment around our home because of your fine work.
